Released: Monday, November 26, 2007

Week of November 19 – November 25, 2007

AGRICULTURAL SUMMARY: Warm temperatures reported despite snow fall.

Corn harvest nearly complete.

Winter wheat condition good going into winter.

Warm temperatures were reported across the State last week despite extreme low temperatures and snow. Temperatures averaged from 1.9 degrees below normal to 7.3 degrees above normal. High temperatures were mostly in the 60's and 70's. Low temperatures were reported below zero and in the single digits. Soil moisture level were below normal for this time of year for both topsoil and sub soil. Topsoil moisture levels were rated 38 percent adequate, 3 points below the 5 year average. Sub soil moisture levels were reported as 21 percent adequate, 5 points below the 5 year average.

	This Week	Last Week	Last Year	5-Yr Avg
